Engineering Innovative Industrial Systems

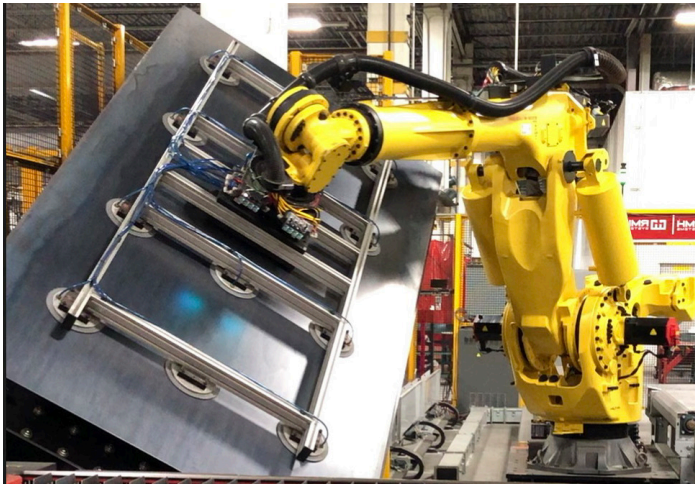

ROBOTIC AUTOMATION

Automate factory operations with reliable robotic automation. Improve productivity and decrease liability with our custom robotics solutions.

- Palletizing / De-Palletizing
- Welding
- Machine Tending
- Material Handling
- Vision Systems
- Sealant Dispensing
- High-Speed Pick & Place
- Cell Control
- Controls / Software
- Panel Design
- Gripper Design / Build
- 1-on-1 Training
- Laser Tending
- Robotic Assembly

>>MATERIAL HANDLING

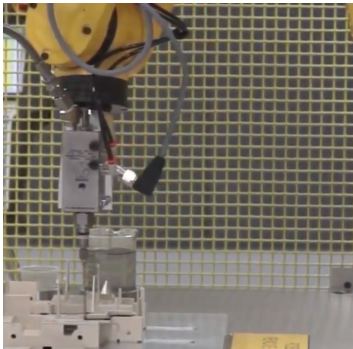

>>PALLETIZING/DE-PALLETIZING

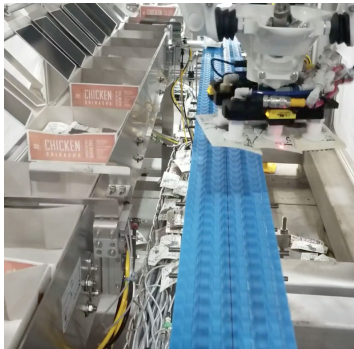

>>MACHINE TENDING

>>SEALANT DISPENSING

>>HIGH-SPEED PICK & PLACE

>>LASER TENDING

>>WELDING

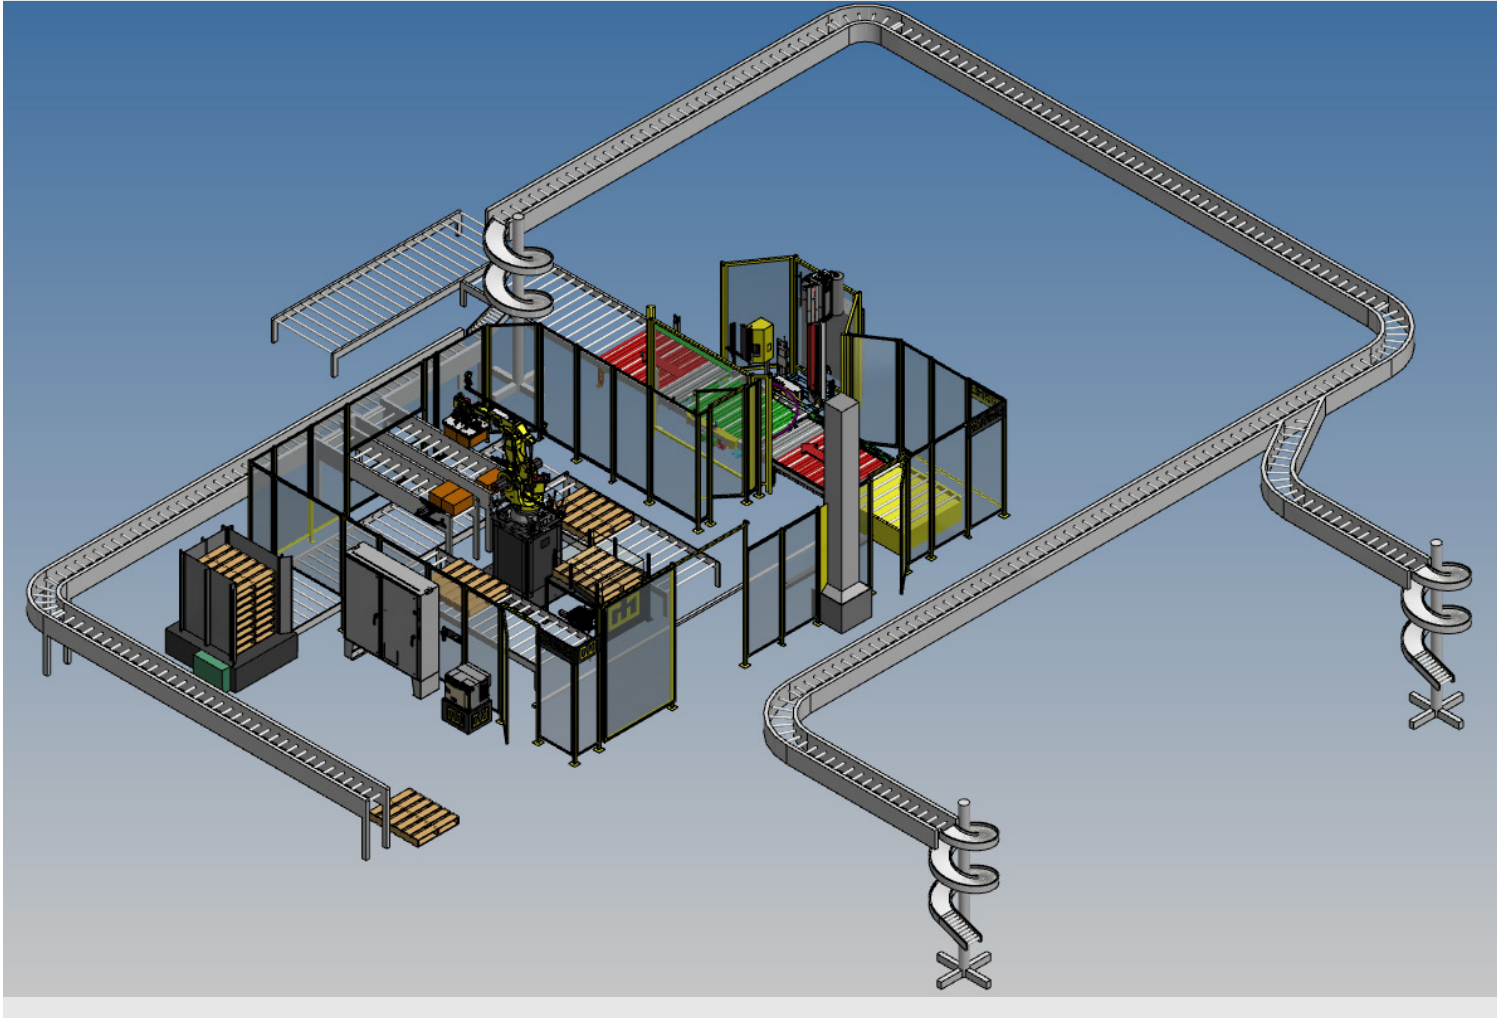

SYSTEMS ENGINEERING

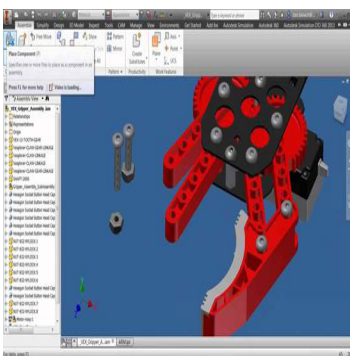

Design turnkey systems solutions with our engineering team. From design to install, we engineer and integrate full systems solutions. Our goal is to increase throughput, safety & productivity.

- Autocad Drafting (2D or 3D)
- Systems Drawing
- Simulation & Animation
- Controls & Programming
- Structural Engineering
- Full System Engineering
- Engineering for Packaging, Material Handling, Robotics & Scale Equipment Integration
- PLC, WCS, & HMI Programming
- Warehouse/Distribution Design
- Consulting & Design Services

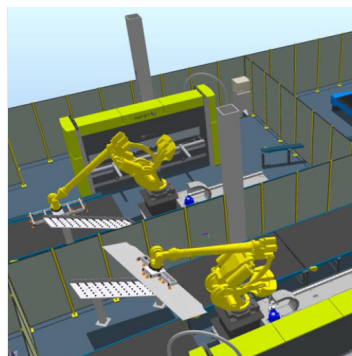

>>FULL SYSTEMS ENGINEERING

>>MECHANICAL DESIGN

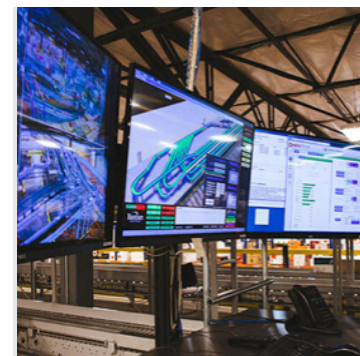

>>ANIMATION SERVICES

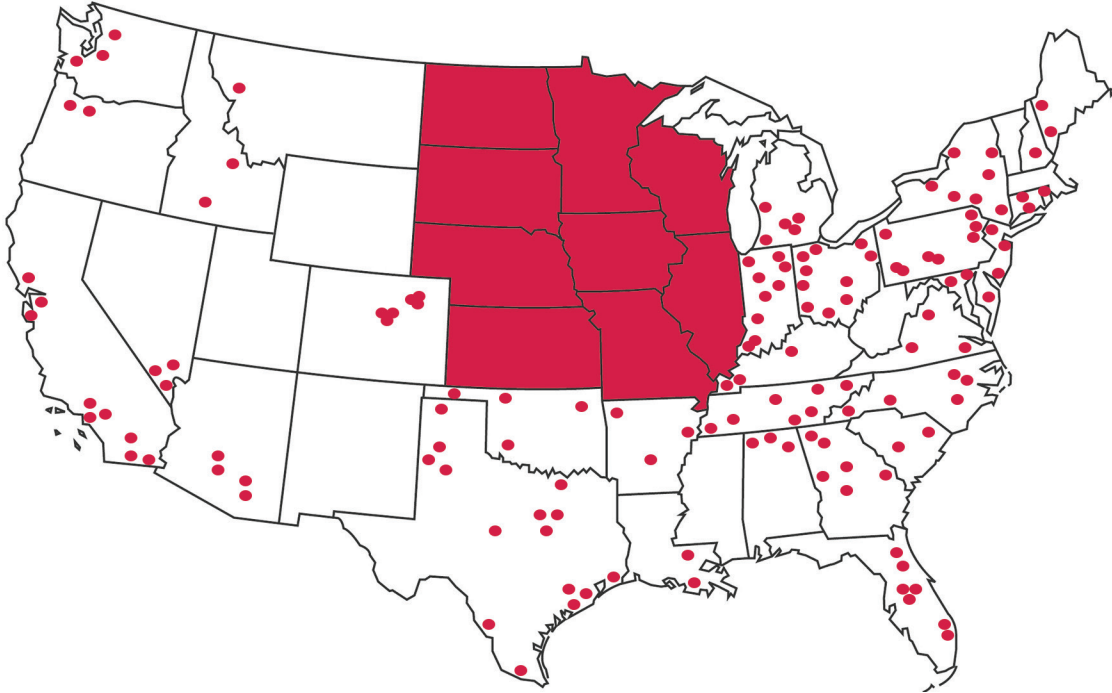

>>CONSULTING & DESIGN

>>WAREHOUSE CONTROL SYSTEMS

We've Completed Projects Across the Nation

Our sales and engineering teams are some of the most knowledgeable in the industry. To locate a representative, visit **rmhsystems.com** or call **(800) 851-4995** for more information

PROGRAMMING & CONTROLS

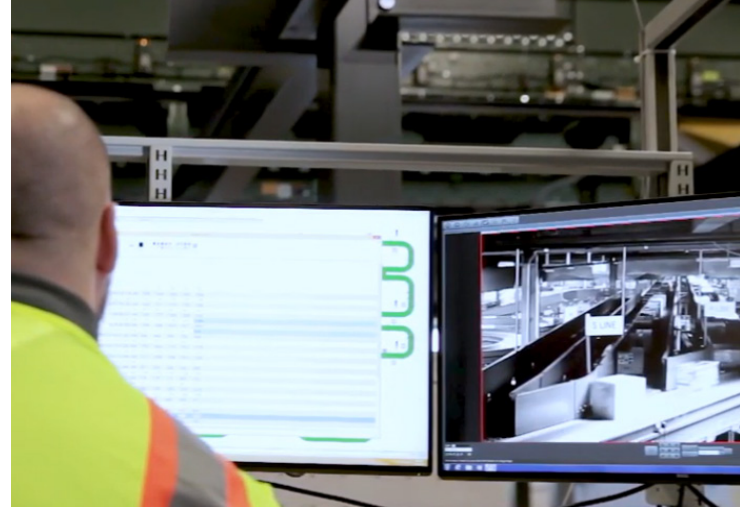

RMH Systems engineers provide programming services to integrate your entire production line. RMH is uniquely positioned with packaging, material handling, robotics, and software engineering expertise.

- Hardware Connectivity
- Software Integration
- PLC Programming
- HMI Programming
- Robotic Cell Interfaces
- Vision Systems
- Controls Design
- ERP Integration

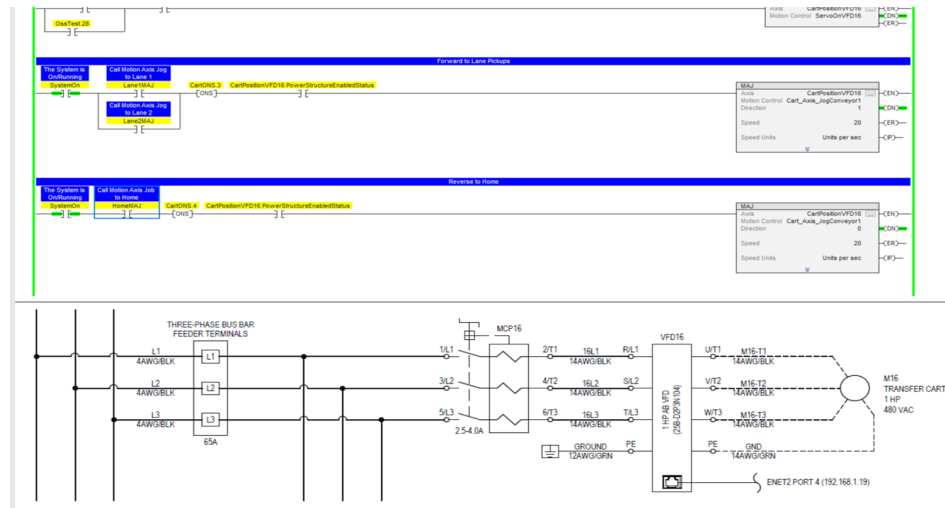

>>HARDWARE INTEGRATION

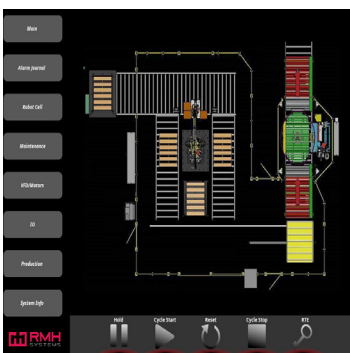

>>SOFTWARE INTEGRATION & TRACEABILITY

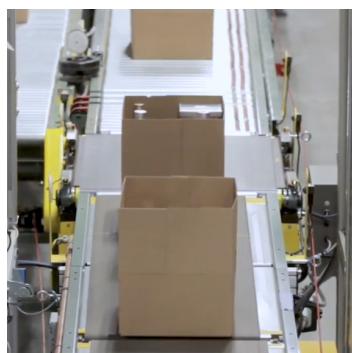

>>PLC PROGRAMMING & INTEGRATION

>>HMI PROGRAMMING

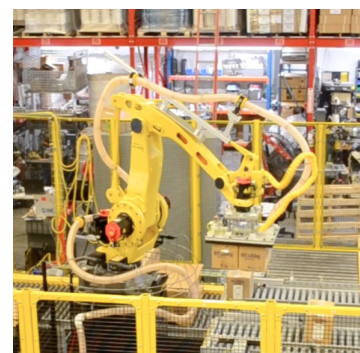

>>VISION SYSTEMS

>>CONTROLS DESIGN

>>ROBOTIC CELL INTERFACES

>> Full System Automation Integration

RMH Systems is an industrial systems integrator. We engineer custom industrial automation solutions for material handling, packaging, and robotics.

- Custom Conveyor Systems
 - Conveyor Sortation Systems
 - Rack Storage Systems
 - Liquid Filling Lines
 - Industrial Robotics
- Robotic Palletizing Systems
 - End-of-Line Packaging Systems
 - Warehouse & Distribution Design
 - Industrial Crane & Lifting Systems
 - Full Systems Integration
